# Obama backs Bush \$17.4-B auto rescue

## Completes Cabinet appointments

WASHINGTON, D.C. (AP) — President Barack Obama on Monday backed a \$17.4-billion rescue package for the auto industry, a move that would help the industry avoid bankruptcy and keep millions of jobs from disappearing.

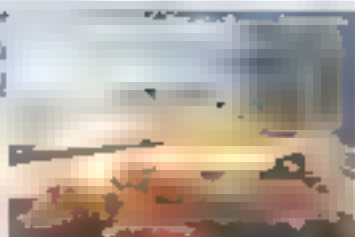

Obama also announced the completion of his Cabinet appointments, naming Alaska Gov. Wally Brown as his first pick for energy secretary.

The rescue package, which Obama signed into law, would provide \$17.4 billion in loans and loan guarantees to the auto industry. It also would allow the government to take a 60 percent stake in General Motors and Chrysler if they need more money.

Obama's move was seen as a key test of his leadership, as he sought to show that he was not a "yes-man" to Congress. The package was passed by a 285-133 vote in the House and a 68-32 vote in the Senate.

Obama also announced that he had named Brown as his first pick for energy secretary. Brown, who has served as governor of Alaska since 2006, is a member of the Republican Party. He is seen as a strong supporter of the oil and coal industries.

### CC Sabathia gets \$9-M signing bonus

Figure 1 displays a series of nine line drawings of a person, arranged in a 3x3 grid. The drawings are labeled with numbers 4 through 10 in the top right corner, indicating the age of the child who drew them. The drawings show a progression from a simple stick figure (age 4) to a more detailed figure with facial features, hair, and clothing (age 10). The figures are drawn in a consistent style, with the head, torso, and limbs clearly defined. The background is white, and the drawings are arranged in a grid that allows for easy comparison of the child's drawing skills over time.

**T**he Philippine Electric Corporation (PECO) is aiming to leave a "green legacy" for future generations by investing in renewable energy sources, according to its chairman, Ramon Sison.

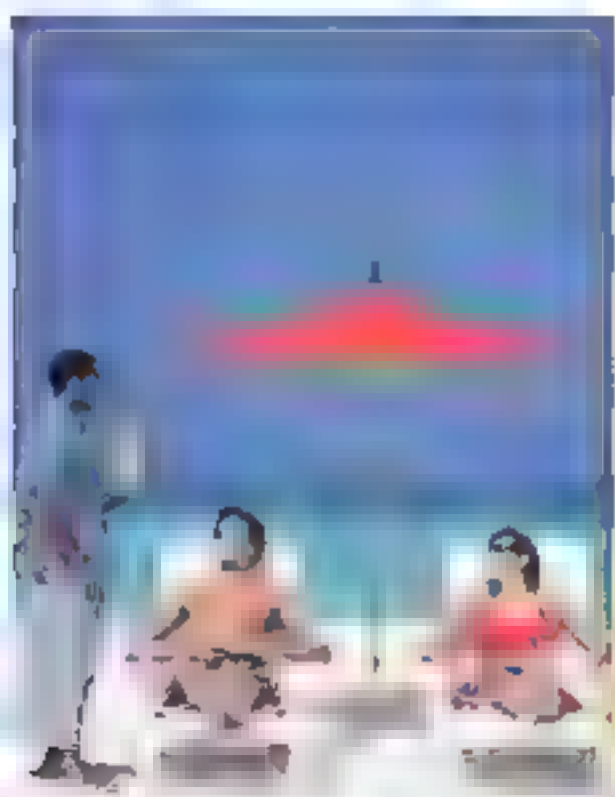

Sison, who is also the president of the Philippine Chamber of Commerce and Industry (PCCI), said that PECO is currently exploring various options for renewable energy, including solar, wind, and hydro.

"We are committed to being a responsible corporate citizen and contributing to the sustainable development of the Philippines," Sison said.

By Howard Rosenberg  
Los Angeles Times

IT'S THAT TIME OF YEAR AGAIN, the season when TV networks scramble to air their best Christmas episodes. For the past 12 years, I've been compiling a list of the 12 best Christmas episodes of the past 12 years. This year, I've chosen 12 episodes that are not only great, but also represent the best of the best. These episodes are the ones that have stood the test of time and are still loved by millions of viewers. They are the episodes that have become a part of our holiday tradition.

By [Name] [Date]

THE PINOY ALTERNATIVE MUSIC SCENE has been growing steadily over the years. It's a scene that's been around for a long time, but it's only in the last few years that it's really started to gain momentum. There are now a lot of bands and artists out there who are creating music that's truly Pinoy, and it's exciting to see the scene growing.

One of the reasons why the Pinoy alternative music scene is growing is because of the internet. It's so easy now to find and listen to music from all over the world, and this has helped to bring Pinoy alternative music to a much wider audience. There are also a lot of online communities and forums where fans of the scene can connect and share their love of the music.
